VI. RESULTS

The District is implementing a long-term plan to modernize its facilities. This plan includes the construction of new buildings and the renovation of existing buildings. The plan also includes the purchase of new equipment and the replacement of old equipment. The plan is being implemented in a phased manner over a period of five years. The first phase of the plan is the construction of a new elementary school building. The second phase is the renovation of the existing elementary school building. The third phase is the purchase of new equipment and the replacement of old equipment. The fourth phase is the construction of a new middle school building. The fifth phase is the renovation of the existing middle school building. The plan is being funded through a combination of state and local funds. The plan is expected to be completed by the end of 2020.
